

ANJANA K P

Laravel Developer | Full-Stack Web Developer (PHP · Laravel · MySQL)

Kannur, Kerala, India | +91 7593073405 | anjanakp7510@gmail.com | linkedin.com/in/anjana-kp-464aa1249

PROFESSIONAL SUMMARY

Full-Stack Developer with 2+ years of experience designing and building scalable web applications using Laravel (MVC architecture, Eloquent ORM, Blade templating), PHP, and MySQL. Skilled in end-to-end development including RESTful API design and integration, role-based authentication and authorization, admin dashboard development, database design, and performance optimization. Comfortable working in Agile/SDLC environments with Git-based version control. Additional experience in data analysis using Power BI, SQL, and Microsoft Excel. Seeking a Laravel Developer or Full-Stack Developer role to apply strong OOP and debugging fundamentals to production-grade applications.

TECHNICAL SKILLS

Languages & Frameworks: PHP, Laravel (MVC, Eloquent ORM, Blade), JavaScript, jQuery, Python, C, C++, OOP

Front-End: HTML5, CSS3, Bootstrap, AJAX, Responsive Web Design

Back-End: RESTful API Design, API Integration, Authentication & Authorization, CRUD Operations, Debugging

Databases: MySQL, MS SQL, Database Design, Database Optimization, Data Modelling

Analytics & Reporting: Power BI, Microsoft Excel, SQL

Tools & Practices: Git, GitHub, Postman, Composer, XAMPP, VS Code, Agile/SDLC, Version Control

Languages: English, Malayalam

WORK EXPERIENCE

Full-Stack Developer | Tigabits Technologies | Kozhikode, India

Jul 2024 – Mar 2026

- Developed 5+ end-to-end web applications using Laravel, PHP, and MySQL, delivering responsive front-end interfaces, RESTful APIs, and optimized database solutions for e-commerce, non-profit, and service-industry clients.
- Implemented role-based authentication and admin dashboards for secure, multi-user platforms serving 100+ end users.
- Optimized MySQL database structures and queries, improving average query response time by 30% and overall application performance.
- Collaborated within a 4-person development team using Git-based version control to ship 10+ features and releases on schedule.

Data Analyst Trainee | DecisionAttic | Bengaluru, India

Dec 2023 – Apr 2024

- Applied Microsoft Excel, Power BI, and SQL for data cleaning, validation, and transformation on datasets of 10,000+ records.
- Built 3+ interactive Power BI dashboards to visualize sales and operations KPIs, used by 5–10 stakeholders.
- Automated recurring Excel reports, reducing manual reporting time by 4 hours/week.

Web Developer Intern | WelkinWits Technologies | Kozhikode, India

May 2023 – Aug 2023

- Designed and implemented 6+ responsive user interfaces using HTML5, CSS3, Bootstrap, and JavaScript.
- Collaborated with the development team on 2 client website projects, delivering all assigned tasks within the internship timeline.

Full-Stack Developer Intern | Maxlore Innovation LLP | Kozhikode, India

Jul 2019 – Oct 2019

- Built responsive front-end interfaces using HTML, CSS, and JavaScript, and implemented backend functionality using PHP and Laravel for a business web application.
- Contributed to 4+ modules/pages as part of a small development team, managing data through MySQL/PhpMyAdmin.

PROJECTS

GamerZone – E-Commerce Web Application

- Online store for gaming consoles and accessories built with Laravel, PHP, MySQL, HTML, CSS, and JavaScript.
- Implemented product listings, shopping cart, order management, and secure user authentication.

Malbelle – Fashion E-Commerce Website

- E-commerce platform for jewelry, footwear, and fashion products using Laravel and MySQL.
- Implemented category filtering, cart, checkout, and an admin panel for product and order management.

Arabian Hearts – Volunteer Registration Website

- Website for a Dubai-based non-profit volunteer organization, built using PHP and MySQL, featuring a volunteer registration/enrollment form and organization information pages.

Orderies – Food Delivery Web Application

- Contributed to core features of Orderies, a food delivery web application, as part of the development team at Tigabits Technologies, using Laravel and MySQL.

Neo – Event Management Website

- Event management platform with booking system, package display, inquiry handling, and an admin dashboard for managing services.
